About Us

<http://www.lets-slim.co.kr>

“Let's slim is an apparel enterprise that specialized in stocking and leggings.”

Let's slim is equipped with a one-stop system of knitting, sewing, dyeing, processing and packing.

Founded in June 2008, Gamsungtex was once a distributor of Gamsungtex Textiles Co., Ltd. (former Shilin Fiber), a producer of stockings. In the very beginning, it mainly supply to clothing stores and exclusive shops. It was not until July 2008 that Gamsungtex was equipped with a one-stop system of knitting, sewing, dyeing, processing and packing relying on Gamsungtex Co., Ltd. And taking this opportunity, Gamsungtex became an enterprise that specialized in producing stockings and leggings.

Provide differentiated quality guarantee with best technology, the most advanced equipment and most sincere mind

The stockings and leggings designed and produced by Let's slim company have adopted the 400 high stitch length knitting technology of Italian 'LONATI', which has no striping. The products have appropriate elasticity, and are smooth and comfortable. They adopt original yarn and functional spandex processed through FD (Full Dul) with “multi-filament yarn”, so as to realize differentiated quality and taste.

Provide customers Total Factory Service, which includes material, design, development, product manufacturing and customer complaint settlement.

Except for customizing products for customers, Let's slim product planning department will also develop different materials and design plans in every new season, and strictly guarantee quality management and stable product supply. In addition, Let's slim also carry out a new promotion technique which can 100% solve customers' complaint. It will help change the structure of stockings distribution market.

(students, office ladies, etc.)

LASYA
GAMSUNGTEX
www.stockings.co.kr
since 1985

The underwear part adopts three-dimensional knitting technology. It can shape hip lines and leg lines at the same time

Paste a mark to distinguish front and back
It is easy to distinguish front and back when wearing this product.

Woven with composite filaments
A little bit thicker, which is suitable for autumn/winter.

Brand Promotion

It is a customized service. After the products being produced by Let's Slim according to customers' demand, it will be packed in the manner designated by customers and labeled with designated trademarks. The difference between this and ordinary customization is that this customized service can minimize the production cycle and provide customers a small quantity or a large quantity of customized production and sample production with competitive price. It is a factory service based on traditional OEM (labeled with subscriber's trademark after production).

Clients & Partners

Twenty brands and suppliers home and abroad have chosen the high-quality Let's Slim stockings and leggings!

Let's Slim will try its best to satisfy the needs of various markets.
